SUMMARY

Data Analyst with hands-on, end-to-end project experience across the full BI pipeline — from SQL Server ETL and incremental data loading to interactive Power BI dashboards. Recently completed an intensive 14-week Data Engineering & BI bootcamp (Experis Academy) covering advanced SQL, SSIS, Power BI/DAX, Python, and data warehouse architecture. Combines strong analytical thinking and business-oriented storytelling with a proven ability to learn new technologies quickly — sharpened by prior experience managing complex operational systems and high-volume data processing.

SKILLS

- **Data Engineering & BI:** SQL Server, T-SQL, SSIS (ETL Pipelines), Power BI, DAX, Data Warehousing (Star / Snowflake Schemas), Data Modeling, Incremental Data Loads
- **Programming & Analysis:** Python (Pandas, Plotly), R, SQL, Power Query, scikit-learn, NumPy
- **Visualization & Tools:** Power BI, R Shiny, Tableau, Excel (Advanced), Git / GitHub, Data Storytelling
- **AI-augmented analytics:** applying AI capabilities within Power BI (natural language, queries, cognitive visualization) for faster, smarter insights.

PERSONAL PROJECTS

- **End-to-End BI Pipeline – E-Commerce Delivery Analytics (Olist Dataset), Experis Academy Capstone:** Built a full pipeline from incremental SQL Server data loading to a live-connected Power BI dashboard, surfacing the delivery-delay drivers behind customer satisfaction and their business impact.
- **[Catching Fraud in the Healthcare System](#):** Built a fraud detection model on Medicare claims; applied SMOTE to address class imbalance, raising Logistic Regression recall from 0.38 to 0.86, evaluated via ROC-AUC and precision/recall.
- **[Behind the Curtains: NYC Broadway Shows](#):** Scraped multi-decade Broadway performance data (Python/BeautifulSoup) and built an interactive R Shiny dashboard visualizing revenue trends and audience demand.
- **[Beyond the Podium: A Global Journey Through F1 History](#):** Analyzed historical F1 race data to uncover driver/team performance trends using Pandas, NumPy, and visualization libraries.

EDUCATION

Business Development (BI) Bootcamp , Experis Academy (ManpowerGroup), Tel Aviv	May – Aug 2026
Data Analytics Boot Camp , NYC Data Science Academy, New York	2024 – 2025
B.Ed. Mus , Jerusalem Academy of Music and Dance, Jerusalem	2018 – 2020
Bachelor of Music , Jerusalem Academy of Music and Dance, Jerusalem	2015 – 2019

PROFESSIONAL EXPERIENCE

Visa Program Assistant , The Jewish Agency for Israel, New York, NY	2022 – 2025
Coordinated visa processing and compliance under SEVIS; built and maintained Excel-based systems to streamline applications and improve data accuracy.	
Hydroponic Greenhouse Manager , Yakum Yarok, Israel	2021 – 2022
Planned and managed daily operations of a hydroponic greenhouse, overseeing supply management and process improvements to enhance yield and quality.	
Military Service (Armored Corps) , Combatant
