SUMMARY

I am seeking a Data Analyst role that utilizes my skills in SQL, Python, and R, with hands-on experience in fraud detection, payment analytics, and anomaly detection. I have built machine learning models and dashboards that improved fraud identification and optimized financial performance. I combine analytical precision with creativity gained from 20 years of classical music training.

SKILLS

SQL, Excel, Python, R, Tableau, Pandas, NumPy, scikit-learn, R Shiny, Data Visualization, Data Storytelling, Git, GitHub.

EDUCATION

NYC Data Science Academy, Data Analytics Boot Camp 2024 (New York)	2024 – 2025
B.Ed. Mus, Jerusalem Academy of Music and Dance	2018 – 2020
Bachelor of Music, Jerusalem Academy of Music and Dance	2015 – 2019

PERSONAL PROJECTS

- ◇ **Catching Fraud in the Healthcare System** 2025 – 2025
 - Built a fraud detection model on Medicare payment claims, applying SMOTE to address class imbalance and raising Logistic Regression recall from 0.38 to 0.86.
 - Evaluated performance using ROC-AUC, precision/recall, and confusion matrices to ensure robust detection.
 - Identified suspicious providers by analyzing transaction anomalies, supporting fraud prevention in large-scale payment systems.
- ◇ **Behind the Curtains: Insights Into NYC Broadway Shows** 2024 – 2024
 - Scraped and curated Broadway revenue data from Playbill using Python (BeautifulSoup).
 - Designed an interactive R Shiny app to visualize ticket sales, theater revenues, and consumer demand trends.
 - Analyzed B2C user behavior and pricing dynamics to uncover insights into revenue optimization and audience patterns.
- ◇ **Beyond the Podium: A Global Journey Through Formula-1 History** 2024 – 2024
 - Analyzed historical Formula 1 race data to uncover performance trends and driver/team patterns.
 - Produced statistical insights and data visualizations with Pandas, NumPy, Matplotlib, and Seaborn.
 - Delivered findings in a structured report and presentation, highlighting key performance drivers.

PROFESSIONAL EXPERIENCE

- ◇ **Visa Program Assistant**; The Jewish Agency for Israel, New York, NY 2022 – 2025
Coordinated visa processing and compliance under SEVIS, ensuring accurate data entry and reporting.
Built and maintained Excel-based systems to streamline visa applications and improve accuracy.
- ◇ **Hydroponic Greenhouse Manager**; Yakum Yarak, IL 2021 – 2022
Planned, built, and managed a hydroponic greenhouse (daily operations & maintenance); developed client relationships, local marketing, and sales; oversaw supply management and implemented productivity improvements to enhance yield and quality.
- ◇ **Military Service (Shiryon)**
